a

abdominal aneurysm surgery 20 years ago (*info pl*), April, p. 47
abdominal aortic aneurysms, screening for (*tip*), May, p. 316
abdominal operations, other, cholecystectomy with (*tip*), February, p. 304
abdominal pregnancy, anemia as a sign of, *February, p. 135
abdominal trauma
– blunt, peritoneal lavage in, *March, p. 193
– emergency laparoscopy in (*tip*), January, p. 330
ABO hemolytic disease, direct hyperbilirubinemia in (*tip*), February, p. 289
abscess, psoas, in Crohn's disease (*tip*), May, p. 356
acne
– and anticonvulsants (*tip*), April, p. 292
– retinoids in, *March, p. 221
acquired ichthyosis: a marker for internal disease, *February, p. 181
acyclovir for herpes simplex infections, *February, p. 187
adenitis, childhood cervical, *April, p. 163
adenoma, adrenal, testosterone-producing (*tip*), April, p. 292
adolescent(s)
– galactorrhea in (*tip*), April, p. 290
– with chronic disease, health care for (*ed*), May, p. 108
– hyperactivity in (*tip*), March, p. 368
– hypertensive, weight training in (*tip*), June, p. 303
– nonspecific somatic symptoms in (*ed*), June, p. 110
– tumors of the central nervous system in, *April, p. 133
adolescent girls, chlamydial infection in (*tip*), June, p. 255
adolescent health care (*tip*), January, p. 347
adolescent psychosocial rating scale (*tip*), June, p. 295
adolescents' questions about sex (*tip*), May, p. 300
adrenal adenoma, testosterone-producing (*tip*), April, p. 292
adrenal mass, incidentally discovered (*tip*), February, p. 270
aerobic dance (*ed*), June, p. 113
agent orange, dioxin and, *March, p. 303
aging, sexuality and, *February, p. 239
AIDS
– (*tip*), January, p. 331
– hemophilia, and hepatitis (*tip*), May, p. 313
– surgical perspective on (*tip*), June, p. 265
alcohol use during pregnancy, *April, p. 199
alcoholic myopathy, acute, *May, p. 249
alpha-adrenergic activity in coronary artery spasm (*tip*), June, p. 287
alpha-adrenergic blockade in pheochromocytoma (*tip*), May, p. 325
alpha-fetoprotein, clinical interpretation of (*tip*), June, p. 269
ameboma, rectal, *February, p. 215
amiodarone-induced pneumonitis (*tip*), May, p. 328
amoxapine overdose (*tip*), January, p. 293
amphetamine use, oral, intracerebral hemorrhage after (*tip*), February, p. 290
ampicillin-resistant hemophilus in the oropharynx (*tip*), March, p. 349
amputation, walking soon after, study shows benefits of (*med*), March, p. 307
amputee, elderly, *May, p. 177
amyloidosis, systemic, diagnosis of (*tip*), January, p. 336
analgesia, patient-controlled (*ed*), March, p. 126
analgesic nephropathy (*tip*), April, p. 295
analgesics, antipyretics and, (*tip*), April, p. 259
anastomosis, ileoanal, techniques in (*tip*), January, p. 359
anemia as a sign of abdominal pregnancy, *February, p. 135
anesthetics, dental, containing epinephrine (*tip*), March, p. 318
aneurysm(s)
– abdominal aortic, screening for (*tip*), May, p. 316
– aortic, with duodenal obstruction, *January, p. 143
– benefit of elective surgery for, is enormous (*med*), January, p. 281
– repair, aortography before, (*tip*), February, p. 308
– ventricular, *March, p. 181
aneurysm surgery, abdominal, 20 years ago (*info pl*), April, p. 47
angina
– in patients with normal coronary arteries (*tip*), June, p. 269
– unstable, aspirin in (*tip*), February, p. 328
angiogenesis factor, secretion of, by macrophages (*tip*), January, p. 289
angiography, digital subtraction, in cerebrovascular disease (*tip*), February, p. 313
angioplasty of aortocoronary saphenous vein graft (*tip*), January, p. 325
anorexia nervosa, diagnostic challenge of, *February, p. 141
antepartum pelvic examination in PROM (*tip*), May, p. 373

analgesic nephropathy (*tip*), April, p. 295
analgesics, antipyretics and, (*tip*), April, p. 259
anastomosis, ileoanal, techniques in (*tip*), January, p. 359
anemia as a sign of abdominal pregnancy, *February, p. 135
anesthetics, dental, containing epinephrine (*tip*), March, p. 318
aneurysm(s)
– abdominal aortic, screening for (*tip*), May, p. 316
– aortic, with duodenal obstruction, *January, p. 143
– benefit of elective surgery for, is enormous (*med*), January, p. 281
– repair, aortography before, (*tip*), February, p. 308
– ventricular, *March, p. 181
aneurysm surgery, abdominal, 20 years ago (*info pl*), April, p. 47
angina
– in patients with normal coronary arteries (*tip*), June, p. 269
– unstable, aspirin in (*tip*), February, p. 328
angiogenesis factor, secretion of, by macrophages (*tip*), January, p. 289
angiography, digital subtraction, in cerebrovascular disease (*tip*), February, p. 313
angioplasty of aortocoronary saphenous vein graft (*tip*), January, p. 325
anorexia nervosa, diagnostic challenge of, *February, p. 141
antepartum pelvic examination in PROM (*tip*), May, p. 373

antibiotic prophylaxis in surgery (*tip*), February, p. 325
antibiotics
– inappropriate use of (*tip*), March, p. 335
– prophylactic, in appendectomy (*tip*), February, p. 279
– severely ill patients on, vitamin K appears useful in (*med*), March, p. 308
anticancer agents, interferons as, *June, p. 246
anticonvulsants, acne and (*tip*), April, p. 292
antidepressant plasma levels, tricyclic, monitoring, *May, p. 199
antidepressants, heterocyclic, in nonpsychiatric disorders, *March, p. 203
antiemetic efficacy of dexamethasone (*tip*), January, p. 346
anti-giardia action of human milk (*tip*), January, p. 335
anti-inflammatory drugs
– and blood pressure (*tip*), April, p. 269
– nonsteroidal, practical points on, *March, p. 258
antinuclear antibody tests in children (*tip*), March, p. 321
antinuclear antimetastatic agents, calcium channel blockers as (*tip*), April, p. 288
antiplatelet therapy, saphenous vein grafts and (*tip*), March, p. 316
antipyretics and analgesics (*tip*), April, p. 259
antituberculous drugs, primary resistance to (*tip*), April, p. 259
anxiety and depression, differentiating between, is difficult choice (*news*), January, p. 370
aortic aneurysm(s)
– abdominal, screening for (*tip*), May, p. 316
– with duodenal obstruction, *January, p. 143
aortic coarctation, balloon dilation of (*tip*), February, p. 345
aortic graft-enteric fistulas (*tip*), February, p. 322
aortic surgery, hemodynamic monitoring during (*tip*), February, p. 354
aortocoronary saphenous vein graft, angioplasty of (*tip*), January, p. 325
aortography before aneurysm repair (*tip*), February, p. 308
aphasia, multifaceted approach is advised for (*news*), March, p. 379
appendectomy, prophylactic antibiotics in (*tip*), February, p. 279
appendix, sarcoidosis of (*tip*), January, p. 330
ARDS, increase in suppressor T cells may portend (*med*), June, p. 252
arterial reconstruction, graft choice in (*tip*), May, p. 325
arthritis
– infectious, of the hip, *February, p. 131
– rheumatoid, emergencies in, *June, p. 127
– rheumatoid, oral gold therapy in (*tip*), May, p. 299
arthroscopy looks promising for shoulder injuries (*med*), June, p. 251
aspartame hearing, FDA rejects request for (*news*), April, p. 305
aspergillosis
– intracranial (*tip*), January, p. 305
– invasive, of paranasal tissues (*tip*), January, p. 348
aspirin in unstable angina (*tip*), February, p. 328
asplenia, functional, penicillin prophylaxis in (*tip*), June, p. 324
asthma
– outpatient therapy of, steroids in (*tip*), January, p. 330
– theophylline use in (*tip*), March, p. 317
asynergy, ventricular, in myocarditis (*tip*), January, p. 354
athlete, female, *May, p. 233
athletics, qualification/disqualification process in, *February, p. 149
autoimmune polyglandular syndromes, *March, p. 149
autonomic failure, blood pressure in (*tip*), March, p. 321

b

back injury, work-related, demands early rehabilitation (*med*), March, p. 308
back pain (*tip*), January, p. 350
bacteremia
– and decubitus ulcers (*tip*), February, p. 313
– occult, in children (*tip*), April, p. 278
bacterial infection, man is winning the war against (*news*), January, p. 366
bacterial tracheitis
– (*tip*), February, p. 271
– in children (*tip*), January, p. 310
balloon dilation of aortic coarctation (*tip*), January, p. 345
baroreflex sensitivity in essential hypertension (*tip*), February, p. 298
basal cell carcinoma of the nipple (*tip*), January, p. 356
BCG vaccination, tuberculin reactions and (*tip*), April, p. 282
beclomethasone, inhaled (*tip*), January, p. 346
benign pulmonary tumors, *January, p. 253
benzodiazepines
– *February, p. 256
– (*tip*), January, p. 316
benzyl alcohol toxicity (*tip*), February, p. 318
beta blockade, reducing infarct size with (*tip*), June, p. 255
bile duct stones, endoscopic papillotomy for (*tip*), January, p. 305
biliary obstruction, scanning for (*tip*), January, p. 294
birth, underwater (*tip*), May, p. 330
black widow spider bite, *May, p. 241
bladder, neurogenic, in myelomeningocele (*tip*), February, p. 276
bleeding
– gastrointestinal, *April, p. 115
– gastrointestinal, evaluation of (*tip*), February, p. 296
– moxalactam and (*tip*), April, p. 282
blood donors, carboxyhemoglobin screening may be indicated in (*med*), February, p. 263
blood flow, cerebral, effects of suctioning on (*tip*), February, p. 274
blood pressure
– anti-inflammatory drugs and (*tip*), April, p. 269
– in autonomic failure (*tip*), March, p. 321

blood pressure cuff size (*tip*), April, p. 266
blood pressure monitoring, home, is valuable (*med*), February, p. 263
bone trauma from passive exercise (*tip*), May, p. 314
borderline personality patients, identifying and managing, *January, p. 203
bowel injuries, evaluation of, peritoneal lavage for (*tip*), May, p. 359
bowel, large, recurrent cancer in (*tip*), June, p. 256
brain death, diagnosis of (*tip*), May, p. 360
breast cancer
—progesterone receptors in (*tip*), April, p. 300
—radiation and chemotherapy in (*tip*), June, p. 265
breast feeding and infant weight gain (*tip*), March, p. 336
breast masses, needle aspiration of (*tip*), January, p. 346
breast milk, caffeine in (*tip*), June, p. 318
bromocriptine, uses of (*tip*), May, p. 369
bronchial fistulas, endoscopic closure of (*tip*), March, p. 315
bronchoscopic procedures in lung cancer (*tip*), February, p. 281
bulimia, diagnosing, *May, p. 161

C

cadaveric kidneys, preservation of (*tip*), April, p. 277
caffeine in breast milk (*tip*), June, p. 318
calcification
—liver and gallbladder, detection of, *January, p. 247
—pericardial, in Gaucher's disease (*tip*), April, p. 285
calcium channel blockers as antimetastatic agents (*tip*), April, p. 288
cancer
—breast, progesterone receptors in (*tip*), April, p. 300
—breast, radiation and chemotherapy in (*tip*), June, p. 265
—cholesterol and (*tip*), February, p. 314
—colon, study shows link between lifestyle and (*news*), March, p. 372
—HHS urges changes in lifestyle to prevent (*news*), May, p. 385
—of the large bowel, recurrent (*tip*), June, p. 256
—lung, bronchoscopic procedures in (*tip*), February, p. 281
—lung, passive smoking and (*tip*), February, p. 316
—pancreatic, ^{125}I implants for (*tip*), March, p. 365
—rectal, patients with, improving survival in, *January, p. 165
cancer patients, evaluating hepatic lesions in (*tip*), March, p. 316
cancer survival rates up over past decade (*news*), January, p. 363
cancer therapy, effects of hyperthermia in (*tip*), February, p. 318
candidal infection in gastric ulcers (*tip*), February, p. 307
captopril in Takayasu's disease (*tip*), April, p. 270
captopril therapy, renal complications of (*tip*), May, p. 304
carboxyhemoglobin screening may be indicated in blood donors (*med*), February, p. 263
carcinogenic effect of ultraviolet irradiation (*tip*), January, p. 326
carcinoid syndrome (*tip*), January, p. 308
carcinoid tumors, surgical management of (*tip*), January, p. 296
carcinoma
—basal cell, of the nipple (*tip*), January, p. 356
—endometrial, screening for (*tip*), June, p. 299
—gastric, adjuvant chemotherapy for (*tip*), January, p. 306
—ovarian, ultrasonic follow-up of (*tip*), April, p. 274
cardiac arrest
—ischemic myelopathy following, *June, p. 221
—new trends in the management of, *February, p. 223
cardiac conduction system appears to play a role in SIDS (*med*), January p. 282
cardiac enzyme elevation, surgery can precipitate (*med*), February, p. 264
cardiac pacemakers: current concepts, *May, p. 223
cardiac valve injury in chest trauma (*tip*), April, p. 264
carotid and coronary artery disease, coexistent (*tip*), April, p. 274
carotid disease, internal, is detectable with thermometer (*med*), February, p. 264
carotid system, noninvasive testing of, *March, p. 157
carpal syndrome and occupational tasks, study links (*med*), February, p. 264
catecholamines
—myocardial, in heart failure (*tip*), February, p. 285
—plasma, exercise and (*tip*), May, p. 356
catheters, subclavian hemodialysis, complications of (*tip*), March, p. 328
cat-scratch disease, microorganisms in (*tip*), April, p. 280
cefoxitin, prophylactic, in cesarean section (*tip*), January, p. 362
cellulitis, recurrent, after saphenous phlebectomy (*tip*), June, p. 299
central nervous system, tumors of, in adolescents, *April, p. 133
cerebral blood flow, effects of suctioning on (*tip*), February, p. 274
cerebrovascular disease, digital subtraction angiography in (*tip*), February, p. 313
cervical adenitis, childhood, *April, p. 163
cervical spine fractures, CT is useful for identifying (*med*), January, p. 281
cesarean section, prophylactic cefoxitin in (*tip*), January, p. 362
cesarean section rates (*tip*), January, p. 294
chancroid, single-dose therapy for (*tip*), January, p. 339
CHD, cigarette smoking is leading modifiable cause of (*news*), February, p. 331
CHD risk decreases with lowering of cholesterol levels (*news*), March, p. 369
chemical dependency: a unified illness, *March, p. 285
chemonucleolysis, success of, relates to size of disc protrusion (*med*), June, p. 251

chemotherapy
– adjuvant, for gastric carcinoma (*tip*), January, p. 306
– radiation and, in breast cancer (*tip*), June, p. 265
chest pain, pleuritic, in young adults (*tip*), March, p. 318
chest radiography, bedside, efficacy of (*tip*), April, p. 264
chest trauma, cardiac valve injury in (*tip*), April, p. 264
child snatching (*tip*), January, p. 317
childhood cervical adenitis, *April, p. 163
childhood migraine and motion sickness (*tip*), February, p. 269
childhood poisonings decrease but remain serious threat in U.S. (*news*), May, p. 394
children
– antinuclear antibody tests in (*tip*), March, p. 321
– bacterial tracheitis in (*tip*), January, p. 310
– cholesterol screening in (*tip*), May, p. 328
– chronic diarrhea in infants and, *May, p. 280
– effect of maternal smoking on (*tip*), March, p. 365
– foot dermatitis in (*tip*), May, p. 334
– gifted, study of, reaches seventh decade (*news*), June, p. 334
– mothers' concerns about their (*tip*), March, p. 314
– obese, weight loss and fitness in (*tip*), January, p. 314
– occult bacteremia in (*tip*), April, p. 278
– outbreak of hepatitis in (*tip*), April, p. 259
– portal obstruction in (*tip*), March, p. 343
– sexually transmitted diseases in (*tip*), January, p. 328
– speech and language disorders in, *May, p. 257
– superficial masses in (*tip*), February, p. 299
– treatment of hypoglycemia in (*tip*), January, p. 336
– tuberculosis rates in (*tip*), June, p. 326
– ureteropelvic junction obstruction in, *March, p. 211
– urinary tract infections in, *January, p. 147
chlamydial infection in adolescent girls (*tip*), June, p. 255
chloride, dietary, in 'sodium-dependent' hypertension (*tip*), March, p. 313
cholecystectomy with other abdominal operations (*tip*), February, p. 304
cholecystitis, acute (*tip*), April, p. 266
cholestatic jaundice, investigation of (*tip*), January, p. 338
cholesterol and cancer (*tip*), February, p. 314
cholesterol levels, CHD risk decreases with lowering of (*news*), March, p. 369
cholesterol screening in children (*tip*), May, p. 328
chronic active hepatitis
– *June, p. 228
– delta agent and (*tip*), February, p. 302
cigarette smoking is leading modifiable cause of CHD (*news*), February, p. 331
circumcision (*tip*), February, p. 280
cirrhotic patients, risk of surgery in (*tip*), March, p. 322
cisplatin toxicity (*tip*), January, p. 340
CK-MB levels in runners (*tip*), April, p. 271
coarctation, aortic, balloon dilation of (*tip*), January, p. 345
colon cancer, study shows link between lifestyle and (*news*), March, p. 372
colon, Crohn's disease of, surgery for (*tip*), June, p. 279
colonoscopy for synchronous colorectal neoplasms (*tip*), May, p. 374
colorectal neoplasms, colonoscopy for synchronous (*tip*), May, p. 374
concussion in football players (*tip*), June, p. 273
congenital anomalies in diabetic pregnancies (*tip*), March, p. 361
congenital tear duct obstruction, *January, p. 213
conjunctivitis
– acute (*tip*), February, p. 302
– gonococcal (*tip*), February, p. 280
consciousness, post-traumatic transient loss of (*tip*), March, p. 351
contusion, myocardial (*tip*), March, p. 334
convulsions in shigellosis (*tip*), April, p. 269
COPD patients, elderly, pneumococcal vaccine in (*tip*), February, p. 294
coping in an extended family, investigators analyze major keys to (*news*), April, p. 308
corn syrup sugars in diarrhea of infancy (*tip*), January, p. 289
coronary arteries, normal, angina in patients with (*tip*), June, p. 269
coronary artery disease, carotid and, coexistent (*tip*), April, p. 274
coronary artery endothelium, role of (*tip*), January, p. 346
coronary artery spasm, alpha-adrenergic acitivity in (*tip*), June, p. 287
coronary artery surgery
– discussing, with the patient, *January, p. 123
– late outcome of (*tip*), February, p. 307
coronary bypass surgery, propranolol in (*tip*), January, p. 338
coronary embolism (*tip*), May, p. 302
coronary reocclusion after streptokinase (*tip*), January, p. 355
coronary risk factors, control of, may affect patency of bypass grafts (*med*), January, p. 281
corticosteroids, topical, rational use of, *January, p. 262
Crohn's disease
– of the colon, surgery for (*tip*), June, p. 279
– psoas abscess in (*tip*), May, p. 356
croup (*tip*), January, p. 312
CRS rates, rubella and, decline rapidly in 1983 (*news*), June, p. 335
CT appearance of splenic lymphoma (*tip*), January, p. 318
CT is useful for identifying cervical spine fractures (*med*), January, p. 281
cuff size, blood pressure (*tip*), April, p. 266
cyclosporin A, side effects of (*tip*), April, p. 285

d

death, brain, diagnosis of (*tip*), May, p. 360
decubitus ulcers, bacteremia and (*tip*), February, p. 313
deinstitutionalized mentally retarded, medical care of, *April, p. 228
delivery, forceps, of low-birth-weight infants (*tip*), February, p. 303
delta agent and chronic active hepatitis (*tip*), February, p. 302
dementia patient, family therapy and, *May, p. 149
dental anesthetics containing epinephrine (*tip*), March, p. 318
dependency, chemical: a unified illness, *March, p. 285
depression, anxiety and, differentiating between, is difficult choice (*news*), January, p. 370
dermatitis, foot, in children (*tip*), May, p. 334
desmoid tumors, tamoxifen for (*tip*), May, p. 336
dexamethasone, antiemetic efficacy of (*tip*), January, p. 346
diabetes mellitus, communicating hydrocephalus in (*tip*), January, p. 335
diabetic neuropathy, drug therapy for (*info pl*), April, p. 47
diabetic pregnancies, congenital anomalies in (*tip*), March, p. 361
diabetics
– in labor, management of (*tip*), May, p. 377
– under age 45, mortality rate in (*tip*), February, p. 316
dialysis patients, iron deficiency in (*tip*), May, p. 299
diarrhea
– chronic, in infants and children, *May, p. 280
– of infancy, corn syrup sugars in (*tip*), January, p. 289
diet
– and hyperactivity (*tip*), February, p. 281
– and kidney stones (*ed*), April, p. 110
diethylstilbestrol exposure, genital anomalies and (*tip*), May, p. 341
digital subtraction angiography in cerebrovascular disease (*tip*), February, p. 313
dioxin and agent orange, *March, p. 303
dioxin risks, pilot study of, is inconclusive (*news*), April, p. 306
disc protrusion, size of, success of chemonucleolysis relates to (*med*), June, p. 251
discipline, physician's role in (*tip*), February, p. 319
diverticulitis, acute, preventing bouts of (*info pl*), January, p. 55
drug administration in liver disease (*tip*), May, p. 347
drug-induced expansion of myocardial infarcts (*tip*), June, p. 321
drug therapy
– for diabetic neuropathy (*info pl*), April, p. 47
– for nocturnal enuresis (*tip*), June, p. 261
drugs
– anti-inflammatory, and blood pressure (*tip*), April, p. 269
– antituberculous, primary resistance to (*tip*), April, p. 259
– and the elderly, update on, *April, p. 238
– new, for hypertension, *May, p. 294
– nonsteroidal anti-inflammatory, practical points on, *March, p. 258
duodenal obstruction, aortic aneurysm with, *January, p. 143
dysuria, acute, in women (*tip*), June, p. 291

e

earwax and otitis media (*tip*), April, p. 277
effusion, malignant pericardial (*tip*), February, p. 312
egg allergy, measles-mumps-rubella vaccine and (*info pl*), January, p. 55
ejection fraction may reflect safety of postinfarction bypass (*med*), June, p. 252
elderly
– drugs and, update on, *April, p. 238
– hip fractures in, rehabilitation of, *January, p. 173
– nutrition and, *March, p. 137
– systolic hypertension in (*ed*), January, p. 117
– thyroid hormone requirements in (*tip*), February, p. 286
elderly amputee, *May, p. 177
elderly COPD patients, pneumococcal vaccine in (*tip*), February, p. 294
elderly patients, groin hernias in (*tip*), February, p. 269
emboli from the superficial femoral artery (*tip*), May, p. 334
embolism
– coronary (*tip*), May, p. 302
– fat, in SLE (*tip*), March, p. 314
endometrial carcinoma, screening for (*tip*), June, p. 299
endoscopic closure of bronchial fistulas (*tip*), March, p. 315
endoscopic papillotomy for bile duct stones (*tip*), January, p. 305
enteritis, radiation (*tip*), February, p. 279
enuresis, nocturnal, drug therapy for (*tip*), June, p. 261
environmental failure to thrive: the need for intervention, *June, p. 191
enzyme elevation, cardiac, surgery can precipitate (*med*), February, p. 264
epilepsy
– discontinuing therapy for (*tip*), February, p. 286
– and sports (*tip*), March, p. 345
epinephrine, dental anesthetics containing (*tip*), March, p. 318
erythroplasia of Queyrat, *April, p. 185
esophageal atresia and tracheo-esophageal fistula, *May, p. 125
esophageal motility in polymyositis (*tip*), May, p. 355
esophageal obstruction, glucagon for (*tip*), May, p. 300
estrogen therapy for tall girls (*tip*), February, p. 296
ethanol infusion, prepartum, neurodevelopmental effects of (*tip*), February, p. 310
evoked potentials in stroke, diagnostic value of, is evaluated (*med*), March, p. 307

exercise
– passive, bone trauma from (*tip*), May, p. 314
– and plasma catecholamines (*tip*), May, p. 356
exercise program for scoliosis appears to be unnecessary (*med*), June, p. 251
eye changes after forty, *April, p. 171

—meningitis in (*tip*), April, p. 296
—mothers and, isolation guidelines for (*tip*), January, p. 351
—premature, regionalized care of (*tip*), February, p. 292
infarct size, reducing, with beta blockade (*tip*), June, p. 255
infarcts, myocardial, drug-induced expansion of (*tip*), June, p. 321
infectious arthritis of the hip, *February, p. 131
infectious disease, body fluids and (*tip*), January, p. 287
inflammatory bowel disease, granulocyte scanning in (*tip*), May, p. 341
influenza vaccines, 1983-84 (*tip*), March, p. 333
insulin, human, *June, p. 204
interferons as anticancer agents, *June, p. 246
intestinal perforation from slow-release indomethacin (*tip*), June, p. 287
intra-abdominal hemorrhage in hemophilia (*tip*), June, p. 283

intracerebral hemorrhage after oral amphetamine use (*tip*), February, p. 290
intracranial aspergillosis (*tip*), January, p. 305
intraventricular hemorrhage (*tip*), February, p. 274
intubation, laryngeal trauma from (*tip*), May, p. 377
invasive aspergillosis of paranasal tissues (*tip*), January, p. 348
iron deficiency in dialysis patients (*tip*), May, p. 299
iron status, infant feeding practices and (*tip*), January, p. 326
irradiation, ultraviolet, carcinogenic effect of (*tip*), January, p. 326
ischemic myelopathy following cardiac arrest, *June, p. 221
isolation guidelines for mothers and infants (*tip*), January, p. 351
isotretinoin (*tip*), January, p. 356

j

jaundice
– cholestatic, investigation of (*tip*), January, p. 338
– obstructive, in Peutz-Jeghers syndrome (*tip*), February, p. 308
jimson weed, toxic manifestations of (*tip*), March, p. 342

k

kidney recipients
– risk of splenectomy in (*tip*), January, p. 314
– sulfa prophylaxis in (*tip*), May, p. 360
kidney stones, diet and (*ed*), April, p. 110
kidneys, cadaveric, preservation of (*tip*), April, p. 277

l

labor
– management of diabetics in (*tip*), May, p. 377
– precipitation of, by fasting (*tip*), March, p. 336
– second stage of, fetal monitoring in (*tip*), June, p. 283
language disorders, speech and, in children, *May, p. 257
laparoscopy, emergency, in abdominal trauma (*tip*), January, p. 330
laparotomy
– in patients with multiple-organ failure (*tip*), March, p. 327
– restaging, in Hodgkin's disease (*tip*), May, p. 379
laryngeal trauma from intubation (*tip*), May, p. 377
laser: gastrointestinal applications, *March, p. 187
later life, transitions of, *June, p. 211
lavage, peritoneal
– in blunt abdominal trauma, *March, p. 193
– for evaluation of bowel injuries (*tip*), May, p. 359
learning disabilities
– *February, p. 246
– and right hemisphere dysfunction (*tip*), January, p. 311
legionella infection in England (*tip*), February, p. 304
leukocytosis, spurious, and thrombocytopenia (*tip*), March, p. 315
leukoplakia, oral, topical retinoids for (*tip*), March, p. 344
life expectancy, beliefs about (*tip*), January, p. 308
lithium and hyperparathyroidism (*tip*), May, p. 304
lithium neurotoxicity (*tip*), January, p. 306
liver disease, drug administration in (*tip*), May, p. 347
liver and gallbladder calcification, detection of, *January, p. 247
liver scans, abnormal, in hyperviscosity syndrome (*tip*), February, p. 303
low birth weight and premature thelarche (*tip*), March, p. 313
lumbar puncture in meningitis (*tip*), January, p. 340
lumbar puncture position and hypoxemia (*tip*), April p. 285
lung cancer
– bronchoscopic procedures in (*tip*), February, p. 281
– passive smoking and (*tip*), February, p. 316
lung diseases, occupational, *February, p. 169
Lyme disease (*tip*), March, p. 364
lymph node biopsy, diagnostic yield of (*tip*), March, p. 349
lymphoma, splenic, CT appearance of (*tip*), January, p. 318

macrophages, secretion of angiogenesis factor by (*tip*), January, p. 289
malignant pericardial effusion (*tip*), February, p. 312
marriages, troubled, treating, *January, p. 221
mass(es)
– adrenal, incidentally discovered (*tip*), February, p. 270
– breast, needle aspiration of (*tip*), January, p. 347
– superficial, in children (*tip*), February, p. 299
mastitis, evaluation of, in nursing women (*tip*), February, p. 300
maternal smoking, effect of, on children (*tip*), March, p. 365
measles eradication is still CDC goal (*news*), May, p. 386
measles-mumps-rubella vaccine and egg allergy (*info pl*), January, p. 55
melanoma
– late recurrence of (*tip*), January, p. 306
– metastatic, treatment of (*tip*), May, p. 330
– recurrent malignant, surgery in (*tip*), April, p. 280
meningitis
– in infants (*tip*), April, p. 296
– lumbar puncture in (*tip*), January, p. 340
– tuberculous, diagnosis of (*tip*), February, p. 312
mental retardation, age of walking and (*tip*), February, p. 325
mentally retarded, deinstitutionalized, medical care of, *April, p. 228
metabolic abnormalities in postoperative organ failure (*tip*), May, p. 359
metastatic melanoma, treatment of (*tip*), May, p. 330
MI, thrombus after, streptokinase and heparin may not prevent (*med*), March, p. 308
microorganisms in cat-scratch disease (*tip*), April, p. 280

middle lobe syndrome, peripheral (*tip*), May, p. 321
migraine
– cause of, investigator searches for (*news*), March, p. 370
– childhood, and motion sickness (*tip*), February, p. 269
mortality rate in diabetics under age 45 (*tip*), February, p. 316
mothers and infants, isolation guidelines for (*tip*), January, p. 351
mothers' concerns about their children (*tip*), March, p. 314
motility, esophageal, and polymyositis (*tip*), May, p. 355
motion sickness
– *June, p. 117
– childhood migraine and (*tip*), February, p. 269
moxalactam and bleeding (*tip*), April, p. 282
multiple-organ failure, laparotomy in patients with (*tip*), March, p. 327
multiple sclerosis, diagnosis of, *January, p. 231
mycobacteria, nontuberculous, *April, p. 207
myelomeningocele, neurogenic bladder in (*tip*), February, p. 276
myelopathy, ischemic, following cardiac arrest, *June, p. 221
myocardial catecholamines in heart failure (*tip*), February, p. 285
myocardial contusion (*tip*), March, p. 334
myocardial infarction
– acute, after radiation therapy (*tip*), February, p. 276
– early discharge after (*tip*), March, p. 350
– sickle cell disease may cause (*med*), January, p. 282
myocardial infarcts, drug-induced expansion of (*tip*), June, p. 321
myocardial perfusion scanning, thallium-201, *April, p. 151
myocarditis, ventricular asynergy in (*tip*), January, p. 354
myopathy, acute alcoholic, *May, p. 249
myxedema, treated, pericardial tamponade in (*tip*), April, p. 288

n

naloxone: opiate antagonists, *January, p. 270
naproxen therapy, pulmonary infiltrates with (*tip*), May, p. 374
nasal obstruction and odor perception (*tip*), March, p. 327
neck dissection, radical, radiotherapy after (*tip*), March, p. 322
needle aspiration of breast masses (*tip*), January, p. 347
needle biopsy, percutaneous (*tip*), May, p. 365
neonatal polycythemia, *February, p. 111
neoplasms, synchronous colorectal, colonoscopy for (*tip*), May, p. 374

seizures and pregnancy, *March, p. 271
self-tattooing by schoolchildren (*tip*), April, p. 284
sepsis after urinary tract infection (*tip*), January, p. 320
septic shock (*tip*), May, p. 342
sex, adolescents' questions about (*tip*), May, p. 300
sexual activity and the postcoronary patient, *March, p. 175
sexual intercourse and urinary tract infection (*tip*), April, p. 277
sexuality
– and aging, *February, p. 239
– during pregnancy, *May, p. 273
sexually transmitted diseases in children (*tip*), January, p. 328
shigellosis, convulsions in (*tip*), April, p. 269
shock
– hetastarch for (*tip*), January, p. 350
– septic (*tip*), May, p. 342
shoulder injuries, arthroscopy looks promising for (*med*), June, p. 251
sickle cell disease may cause myocardial infarction (*med*), January, p. 282
SIDS, cardiac conduction system appears to play a role in (*med*), January, p. 282
sigmoidoscopy, flexible fiberoptic, in family medicine, *May, p. 131
skin changes after forty, *June, p. 173
skin, *Pseudomonas aeruginosa* infections of, *January, p. 193
SLE, fat embolism in (*tip*), March, p. 314
sleep after forty, *January, p. 135
slipped femoral epiphysis, *April, p. 159
smoke, women who: an equal right to die (*ed*), March, p. 128
smoking
– cigarette, is leading modifiable cause of CHD (*news*), February, p. 331
– maternal, effect of, on children (*tip*), March, p. 365
– passive, and lung cancer (*tip*), February, p. 316
'sodium-dependent' hypertension, dietary chloride in (*tip*), March, p. 313
somatic symptoms, nonspecific, in adolescents (*ed*), June, p. 110
soy-protein formulas (*tip*), April, p. 281
speech and language disorders in children, *May, p. 257
spider bite, black widow, *May, p. 241
spinal injuries, early management of, *May, p. 113
spinal orthoses, *March, p. 277
spine fractures, cervical, CT is useful for identifying (*med*), January, p. 281
splenectomy
– in Gaucher's disease (*tip*), February, p. 271
– risk of, in kidney recipients (*tip*), January, p. 314
splenic lymphoma, CT appearance of (*tip*), January, p. 318
splenic trauma, *June, p. 149
spontaneous pneumomediastinum as an occupational hazard, *April, p. 129
spontaneous pneumothorax (*tip*), January, p. 348
sports, epilepsy and (*tip*), March, p. 345

spurious leukocytosis and thrombocytopenia (*tip*), March, p. 315
stenosis, tracheal (*tip*), February, p. 295
steroids in the outpatient therapy of asthma (*tip*), January, p. 330
stool occult blood, false-positive tests for, hematuria and, *February, p. 201
streptokinase
—coronary reocclusion after (*tip*), January, p. 355
—and heparin may not prevent thrombus after MI (*med*), March, p. 308
—and heparin for pulmonary embolism (*tip*), March, p. 333
stroke, evoked potentials in, diagnostic value of, is evaluated (*med*), March, p. 307
subclavian hemodialysis catheters, complications of (*tip*), March, p. 328
subgaleal hematoma (*tip*), January, p. 325
suctioning, effects of, on cerebral blood flow (*tip*), February, p. 274
suicide, family history of (*tip*), February, p. 319
sulfa prophylaxis in kidney recipients (*tip*), May, p. 360
suppressor T cells, increase in, may portend ARDS (*med*), June, p. 252
systemic amyloidosis, diagnosis of (*tip*), January, p. 336
systemic sclerosis, progressive (*tip*), February, p. 317
systolic hypertension in the elderly (*ed*), January, p. 117

t

T cells, suppressor, increase in, may portend ARDS (*med*), June, p. 252
Takayasu's disease, captopril in (*tip*), April, p. 270
tall girls, estrogen therapy for (*tip*), February, p. 296
tamoxifen for desmoid tumors (*tip*), May, p. 336
tampon use, vaginal ulcers and (*tip*), February, p. 272
tamponade, pericardial, in treated myxedema (*tip*), April, p. 288
tatooing, self-, by schoolchildren (*tip*), April, p. 284
tear duct obstruction, congenital, *January, p. 213
testicular tumors: delay in diagnosis and influence on survival, *May, p. 205
testosterone-producing adrenal adenoma (*tip*), April, p. 292
thallium-201 myocardial perfusion scanning, *April, p. 151
thelarche, premature, low birth weight and (*tip*), March, p. 313
theophylline, hazards of (*tip*), February, p. 292
theophylline use in asthma (*tip*), March, p. 317
thoracic outlet syndrome, *February, p. 121
thrombocytopenia, spurious leukocytosis and (*tip*), March, p. 315
thrombus after MI, streptokinase and heparin may not prevent (*med*), March, p. 308
thymoma, *March, p. 229
thyroid cysts, recurrent (*tip*), March, p. 345
thyroid hormone requirements in the elderly (*tip*), February, p. 286
thyroiditis, postpartum, *February, p. 195
tick paralysis (*tip*), February, p. 310
tinea capitis (*tip*), March, p. 356
tooth reimplantation (*tip*), April, p. 295
topical corticosteroids, rational use of, *January, p. 262
topical retinoids for oral leukoplakia (*tip*), March, p. 344
toxic manifestations of jimson weed (*tip*), March, p. 342
toxic shock syndrome, postoperative (*tip*), January, p. 326
toxicity
—benzyl alcohol (*tip*), February, p. 318
—cisplatin (*tip*), January, p. 340
tracheal stenosis (*tip*), February, p. 295
tracheitis, bacterial
—(*tip*), February, p. 271
—in children (*tip*), January, p. 310
tracheoesophageal fistula, esophageal atresia and, *May, p. 125
tracheostomy tube, new, allows patients on ventilator to speak (*med*), January, p. 282
transitions of later life, *June, p. 211
Trendelenburg position obviates false-positive plethysmography (*med*), March, p. 307
tricyclic antidepressant plasma levels, monitoring, *May, p. 199
tuberculin reactions and BCG vaccination (*tip*), April, p. 282
tuberculosis rates in children (*tip*), June, p. 326
tuberculosis screening, *March, p. 247
tuberculous cavities, fluid levels in (*tip*), March, p. 335
tuberculous meningitis, diagnosis of (*tip*), February, p. 312
tumors
—benign pulmonary, *January, p. 253
—carcinoid, surgical management of (*tip*), January, p. 296
—of the central nervous system in adolescents, *April, p. 133
—desmoid, tamoxifen for (*tip*), May, p. 336
—testicular: delay in diagnosis and influence on survival, *May, p. 205

u

ulcers
—decubitus, bacteremia and (*tip*), February, p. 313
—gastric, candidal infection in (*tip*), February, p. 307
—vaginal, and tampon use (*tip*), February, p. 272
ultrasonic follow-up of ovarian carcinoma (*tip*), April, p. 274
ultraviolet irradiation, carcinogenic effect of (*tip*), January, p. 326
underwater birth (*tip*), May, p. 330
ureteropelvic junction obstruction in children, *March, p. 211
urinary tract infection(s)
—in children, *January, p. 147
—sepsis after (*tip*), January, p. 320
—sexual intercourse and (*tip*), April, p. 277
—whirlpool-associated (*tip*), March, p. 356
